

Advanced Automatic
Entrance Systems.

We're like you.

EVERY DAY, EVERYWHERE

A better way in.

About Us

At Genrance, we're here to make cutting-edge, human-centric smart building technology accessible to everyone. Our mission is centered around what truly matters to you: high quality, safety and reliability — all at a fair price. With a focus on providing available, long-lasting spare parts and constant support, we aren't just a service provider; we're your partner, every step of the way.

We're like you.

We draw on global expertise to craft our smart building solutions. While our products are engineered and manufactured through a high-standard global network, our strategic heart beats in Türkiye. Our Istanbul headquarters oversees every decision, ensuring that every product meets the Genrance standard.

Our Values

Our values represent the principles that guide our business. They are our compass whenever we enter new markets or face new challenges.

Reliability

True trust is built by addressing your needs and keeping our promises — every single time.

Longevity

A lasting presence defined by stability, durability, and a reputation we stand behind.

Professionalism

High-quality, data-driven solutions, blending technology with precision and expertise.

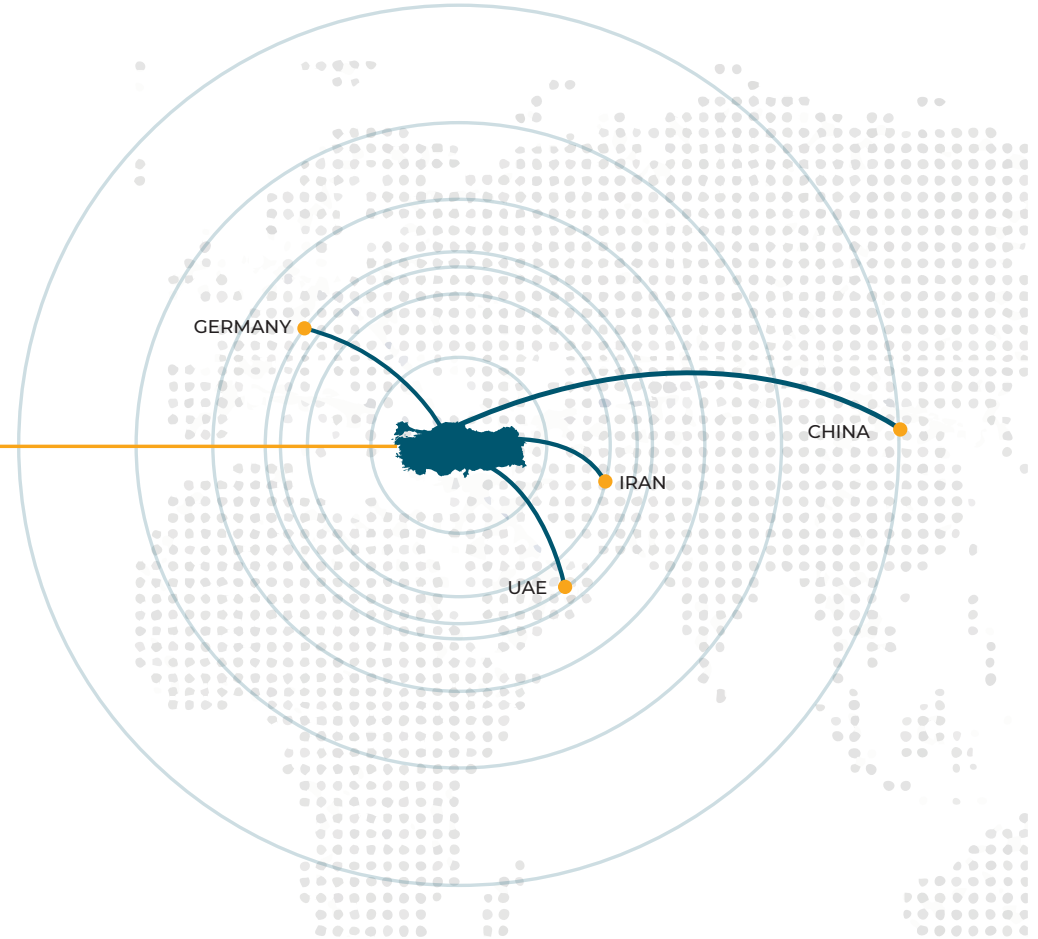

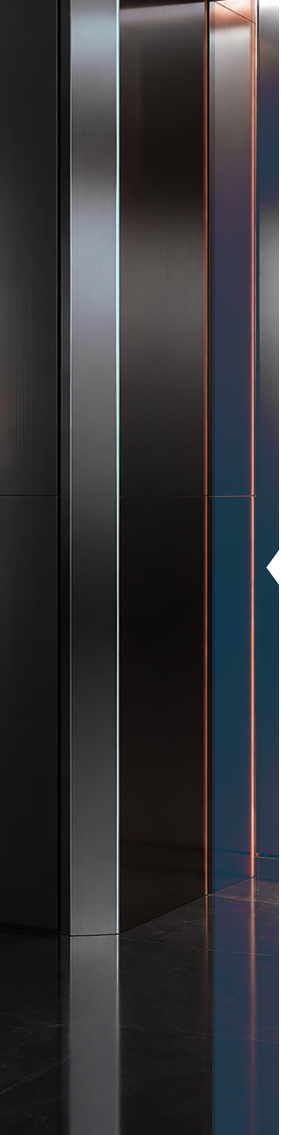

Design-Led Approach

Design thinking balancing three pillars: people, environment and business.

Our Global Connection

We source world-class technology and manage it through our centralized expertise in Türkiye.

Why

GENRANCE

Quiet by design

Smooth, near-silent operation, every time the door moves.

Fast to install

Short installation times and a straightforward setup process.

Full control

Clear, simple control tools - no specialist knowledge needed.

Built to last

Durable components with quick, easy part replacement.

Safety first

Engineered to safety standards, for every person who walks through.

Our Products

Smart building solutions and control systems, organized so you can find what you need quickly.

Automatic Sliding Door Drive

Access Control & Safety System

Backup Battery

GENRANCE

Building the Future Together

Our vision is to make the comfort and ease of smart building technology accessible to everyone — and our mission is to bring effective, accessible, and affordable smart building solutions to everyone.

“Our mission goes beyond just manufacturing automatic doors. We are dedicated to creating spaces that are not only secure and efficient but also effortless to navigate.

As we continue to innovate our commitment to your comfort and security grows stronger.

At Genrance, we don't just provide access; we unlock new possibilities for your architecture.”

Let's Get in Touch

“Ready to upgrade your space?”

Our team is standing by to provide expert consultation technical support, and the perfect solution for your needs.”
